E-Commerce and Fintech

Message from the Guest Editor

Potential research relating to fintech and e-commerce includes, but is not limited to, the following:

- Cashless societies, mobile payments, and digital wallets;
- Initiatives in financial inclusion and their impact on the underserved population;
- Digital transactions, cybersecurity and fraud prevention;
- Global supply chain and cross-border e-commerce;
- Diverse consumer behaviors, priorities, and preferences in the digital age;
- Artificial intelligence (AI) and machine learning in e-commerce;
- Understanding the core beliefs of financial companies and technology companies, including Google, IBM, Intel, and eBay;
- Next generation of fintech, baseline technologies, Industry 4.0;
- Blockchain technology and its applications in finance;
- Fintech industry regulations, innovation, and consumer protection balance;
- Policy recommendations for governments and regulators to encourage the adoption of e-commerce and fintech growth.

We invite researchers, academics, and industry practitioners to submit high-quality research works to contribute to the advancement of knowledge in this dynamic field.
