

# Special Issue

## New Perspectives in Public Finance

### Message from the Guest Editor

This Special Issue seeks to tackle the dynamic challenges and emerging opportunities in public finance amidst rapidly evolving economic, social, and technological landscapes. It aims to uncover innovative strategies in fiscal policy, public debt management, taxation, and government spending. Central themes include the transformative role of digital technology in public financial management, the integration of environmental and social governance (ESG) objectives, and the pursuit of sustainable fiscal practices to address critical issues like inequality and climate change. Contributions are also invited to explore the effects of global crises—such as the COVID-19 pandemic—on public budgets, fiscal deficits, and pathways to economic recovery. We particularly encourage submissions that leverage novel empirical methodologies and offer actionable insights for policymakers and practitioners. This Special Issue covers a broad spectrum of topics, including, but not limited to, the following:

- public finance
- fiscal policy
- taxation
- public debt sustainability
- ESG integration
- digital transformation
- global crisis

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
