

Special Issue

Empirical Corporate Finance and Corporate Governance in the Era of ‘New Normal’

Message from the Guest Editors

The financial crisis revealed severe problems with corporate governance. A number of recent challenges, such as the pandemic and inflation, introduced new issues to the realm of corporate governance and finance that society, governments, businesses, and individuals were not prepared for. This era of the “new normal” calls for evaluation of our previous strategies for addressing these challenges as well as discussions about how to deal with ongoing issues. This Special Issue will focus on corporate finance and corporate governance issues faced in the “new normal”. We welcome empirical studies that discuss capital budgeting, capital financing, working capital management, board of directors, executive compensation, and any other aspect of business that our readers might find interesting. Contributions that advance our understanding of ESG, equity, ethics, labour, stewardship, sustainability, and emerging technologies are especially welcome.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph,
