

Special Issue

Technological Advancements and Managerial Risks on the Road to Economic Growth

Message from the Guest Editor

This Special Issue focuses on the roles of technological advancements and managerial risks to support economic growth. In this research context, the Special Issue is accommodating novel research approaches on the various types of risk that impact economic growth, either at micro- or macroeconomic levels of analysis. Under this pluralistic approach, this Special Issue covers all multileveled types of risk in market, credit, microfinancing, operational, strategic, liquidity, regulatory, reputational, and innovative, which all determine economic growth in different organizational or national contexts of prosperity. Research objectives should be private-owned SMEs, public-directed organizations, and developed and fast emerging developing economies worldwide. The level of defining moderating risks and pursuing innovation and profitability at each one of these micro-, meso-, and macroscales of analysis remains an especially intrinsic and challenging issue.

If your research interests are related to the topics above, I would be more than happy to accommodate your research works in this Special Issue.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph,
