

## Special Issue

# Venture Capital and Private Equity

### Message from the Guest Editors

Venture capital and private equity (VC/PE) are important financial intermediaries bridging risk capital and entrepreneurial firms. The growth of VC/PE is changing the dynamics of capitalism and reshaping national competitiveness. The present Special Issue aims at collecting a number of new contributions, both at the theoretical level and at the practical level. The topics could widely cover financial contracting; governance structures in private equity firm and its invested entrepreneurial firms; angel investments; corporate venture capital; milestone vs. rounds; harvesting investments through IPOs or through mergers and acquisitions; evaluation and investment decisions; due diligence procedures; distressed asset investments; risk and portfolio management; legal and institutional perspective (e.g., blue sky laws, Tax Cuts and Jobs Act of 2017, anti-fraud provisions); and VC/PE's role in innovation ecosystem. We hope that this collection of papers will enrich this cross-discipline literature and encourage discourse in different fields.
