

## Special Issue

# Post SVB Banking Sector Outlook

### Message from the Guest Editor

This Special Issue is dedicated to exploring the interplay between credit and liquidity in shaping bank earnings and profitability, the effects of new capital requirements on the banking sector, and the influence of large language models and AI on banking efficiency. The objective is to provide insights into the immediate impacts of these significant challenges on the banking sector and propose policy measures that central banks worldwide could employ to mitigate these effects. We encourage the use of state-of-the-art econometric, mathematical, statistical, and machine-learning methods to address these issues, drawing from both theoretical and empirical approaches.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
