

## Special Issue

# Machine Learning, Economic Forecasting, and Financial Markets

### Message from the Guest Editor

This Special Issue delves into the intricate realm of economic forecasting and financial markets, exploring the dynamic interplay between economic predictions and the functioning of financial markets. This collection of articles offers valuable insights into the methodologies, challenges, and implications of economic forecasting in the context of financial market dynamics. From analyzing the impact of macroeconomic indicators on stock market performance to forecasting exchange rates and exploring the role of technological advancements in shaping financial market trends, the research presented in this Special Issue sheds light on the complex relationship between economic forecasts and financial market behavior.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
