

## Special Issue

# Contemporary Issues on Auditing and Financial Reporting

### Message from the Guest Editors

In this Special Issue, we are interested in bringing together rigorous manuscripts that advance auditing and financial reporting research. We invite manuscripts featuring original research that complements our understanding of the impact of the financial reporting or auditing standards on accounting and financial reporting practices, corporate governance, and investor and stakeholder's decisions. We call for manuscripts that deal with all aspects related to the impact of International Financial Reporting Standards (IFRS) and the International Standards on Auditing (ISA) on the reporting quantity and quality, voluntary and mandatory disclosure, and the qualitative characteristics of annual reports such as tone, readability, reporting practice, and stakeholders' decisions.
