## **Special Issue**

# Co-movement of International Financial Markets

### Message from the Guest Editor

This Special Issue focuses on the broad topic of "comovement of international financial markets" and includes novel research on the relationship between international financial markets. Contributions concerning all types of international financial markets are relevant and include international stock, bond. foreign exchange markets, and other financial markets. Theoretical financial economics models expanding our understanding of the co-movement and integration of international financial markets are welcomed. Financial econometrics contributions concerning the comovement and integration of international financial markets are welcomed. Empirical asset pricing contributions focusing on the co-movement and integration of international financial markets are encouraged.
