

Special Issue

Empirical Asset Pricing

Message from the Guest Editor

JRFRM is currently accepting submissions for a Special Issue on “Empirical Asset Pricing”, with special emphasis on emerging markets and frontier markets. The main goal of this Special Issue of JRFRM is to encourage comparative studies that deepen our knowledge of empirical asset pricing by focusing on emerging and frontier markets. Over the past two decades, emerging economies assumed a significant role in global markets. This makes a Special Issue of comparative studies with a focus on emerging and frontier markets timely and important. We seek papers that shed light on new knowledge to enrich the literature on empirical asset pricing. We invite submissions in all areas of empirical asset pricing. Priority will be given to empirical papers related to emerging and frontier markets.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
