

Special Issue

Energy Economics, Finance and Sustainability

Message from the Guest Editors

Recent years have seen an increased focus on the interplay between energy economics, finance and sustainability. In exploring these interactions, many papers have put forward ideas that focus on minimising energy usage from traditional sources with an implied mitigation of economic activity. In addition, much work has tended to look upstream from the end user rather than considering the economic, financial and associated social impacts at the point of use from a consumer perspective. In this Special Issue, we are seeking contributions that can speak to these issues from both global as well as local perspectives. We are particularly interested in papers that give consideration to fundamental underlying economic rationales and profitability, as well as the impact of energy policy changes on individuals and small business.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph,
ON N1G2W1, Canada
