

Special Issue

International Finance

Message from the Guest Editor

This Special Issue focuses on the broad topic of “International Finance” and includes innovative finance research in international investments, emerging markets, and multinational corporate finance. Theoretical and empirical papers are solicited that cover traditional investments, such as securities and bonds, along with more exotic investments in foreign currency options, index futures, and derivatives on real estate and commodities. Papers in mathematical finance are particularly encouraged, as such papers frequently make valuable contributions to the advancement of theory. Green bonds, green securities, and derivatives issued in emerging markets are encouraged, as such novel topics are very much under-researched and need to be examined. Research in multinational corporate finance consists of, but is not limited to, multinational financial statement analysis, MNC risk exposure, innovative MNC financing strategies, MNC transaction exposure, and foreign currency hedging.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
