Special Issue

Recent Advances in Industrial Network Security

Message from the Guest Editors

This Special Issue aims to spotlight pioneering research that addresses the growing complexities and threats facing modern environments. As industries embrace automation, IoT, and smart infrastructure, the need for resilient and intelligent security frameworks has never been more urgent. We invite high-quality contributions on topics such as AI-powered threat detection, industrial IoT (IIoT) security, blockchain-based solutions, secure SCADA systems, cyber-physical system resilience, and real-time risk mitigation strategies. By bridging theoretical innovation with practical application, this Special Issue seeks to shape the future of secure industrial systems. Researchers, practitioners, and industry leaders are encouraged to submit their latest work and join this vital conversation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute research and comprehensive review articles for publication in Journal of Sensors and Actuator Networks (JSAN), an international, open access journal which provides an advanced forum for research findings in areas of sensors and actuators. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sensors and actuators and fostering applications of sensor-based measurements and effective actuator incorporation.

Editor-in-Chief

Prof. Dr. Lei Shu 1. College of Artificial Intelligence, Nanjing Agricultural University, Nanjing 210031, China 2. School of Engineering, College of Science, University of Lincoln, Lincoln LN6 7TS, UK

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Control and Optimization)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the first half of 2025).
