Special Issue

Feature Papers on Computer and Electrical Engineering 2022

Message from the Guest Editor

Computer engineering programs were largely developed in engineering departments with a focus on electrical engineering. Today, the influence of computers has become more revolutionary than that of electrical engineering. The design, analysis, and operation of electrical and electronic systems are now dominated by computers, driven by a natural and convenient interface between computers and electrical systems, as well as significant improvements in speed and efficiency.

The aim of this Special Issue is to publish outstanding papers presenting the latest research and scientific results related to computer and electrical engineering topics.

This Special Issue will also contain selected papers from The 2022 15th International Conference on Computer and Electrical Engineering (ICCEE 2022). The conference will be held at and sponsored by Shenzhen University, China, on 24–26 June 2022 (http://www.iccee.org/).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute research and comprehensive review articles for publication in Journal of Sensors and Actuator Networks (JSAN), an international, open access journal which provides an advanced forum for research findings in areas of sensors and actuators. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sensors and actuators and fostering applications of sensor-based measurements and effective actuator incorporation.

Editor-in-Chief

Prof. Dr. Lei Shu
1. College of Smart Agriculture (Artificial Intelligence), Nanjing Agricultural University, Nanjing 210031, China
2. School of Engineering, College of Science, University of Lincoln, Lincoln LN6 7TS, UK

Author Benefits

High Visibility:
indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

Journal Rank:
JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Control and Optimization)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the first half of 2025).
