Electronic Commerce and Information Management Towards the Digital Era

Message from the Guest Editors

In an era of rapid digital transformation, electronic commerce (e-commerce) and information management are pivotal in driving economic development.

Businesses and economies worldwide increasingly rely on data-driven decision making, digital infrastructures, and innovative technologies to foster economy growth, efficiency, and resilience. This Special Issue aims to explore cutting-edge research at the intersection of e-commerce and information management, offering new insights into how digital strategies, platforms, and technologies contribute to long-term economic and psychological wellbeing. We invite scholars, practitioners, and policymakers to contribute their latest research, theoretical advancements, case studies, and technological innovations that align with the principles of economic development through digital commerce and information systems.

About the Journal

Message from the Editor-in-Chief

Since its establishment, the *Journal of Theoretical and Applied Electronic Commerce Research (JTAER)* has been committed to publishing highquality, peer-reviewed scholarship that advances knowledge regarding electronic commerce in an increasingly complex and interconnected world. *JTAER* aims to create more innovative, responsible, and inclusive forms of electronic commerce by offering an open access international forum for both theoretical and applied research on the impact of digital technologies and business practices on markets and commerce. To achieve this mission, *JTAER* uses a rigorous peer-review process, adheres to strong ethical standards, and supports innovation and informed decision-making in the global digital economy.

Editor-in-Chief

Prof. Dr. Ting Chi
