The Selected Papers of the 4th International Meeting on Zoo Research, Conservation and Biodiversity

Message from the Guest Editor

The 4th International Meeting on Zoo Research, Conservation and Biodiversity (IMZRCB) will be hosted by the Serengeti-Park Hodenhagen in Germany from 3 to 6 April 2024. This yearly meeting was created to provide a platform for scientists, conservationists, academia, zoo researchers and all persons interested to discuss and exchange information on new science-based innovations and research topics. Such a platform offers perspectives and future-oriented solutions to biodiversity changes, while also addressing environmental sustainability. This year, the hybrid event will take place during the 50th anniversary of the park. As such, the conference theme is “50 years of the Serengeti-Park and what an animal park of this dimension has, in those 50 years, really contributed to animal conservation and biodiversity in the local area and back in nature”. The aim of this Special Issue is to present new and emerging research on animal welfare, conservation impact and challenges, and policies for animals in zoos. It will also highlight discussions on the future of zoos and how to leverage the past.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Journal of Zoological and Botanical Gardens, an international, multidisciplinary, peer-reviewed, open-access and open-source scientific journal that covers areas at the intersection of fauna and flora conservation. It publishes reviews, original research papers, short communications and opinion papers, no restriction on the maximum length of the papers. The Journal of Zoological and Botanical Gardens is the first international, peer-reviewed journal that provides an advanced forum for studies on both animals and plants kept in zoos, aquaria, and botanical gardens. It offers a unique opportunity to have the most updated research insights into each individual institution and discipline, but also a chance to treat common issues relating to their missions and aims, responding to the need of a multidisciplinary partnership approach.

Editor-in-Chief

Dr. Kevin Cianfaglione

Faculté de Gestion, Economie et Science (FGES), Université Catholique de Lille, 59800 Lille, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, AGRIS, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.8 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2025).
