## The Impacts of Drought on Ecosystem Services and Livelihoods in the Global South

Guest Editors:

**Dr. Gladman Thondhlana**

**Dr. Sheunesu Ruwanza**

**Dr. Elandrie Davoren**

**Dr. Staffan Rosell**

**Dr. Andrea Belgrano**

**Prof. Dr. Regina Lindborg**

**Prof. Dr. Sheona Shackleton**

**Prof. Dr. Ken Findlay**

**Prof. Dr. James Gambiza**

Deadline for manuscript  
submissions:

**closed (30 December 2021)**

### Message from the Guest Editors

In this Special Issue, we aim to provide a collection of papers that critically evaluates links between drought frequency and severity, ecosystem services and disservices, and associated impacts to livelihoods across terrestrial and coastal ecosystems in the Global South. Topics of interest include identification of the social actors most affected by droughts and whether drought impacts differ across social-ecological gradients, livelihoods, and ecosystems. Interest also extends to how different ecosystem service generation is affected by drought intensity and frequency as ecosystem stressors and the extent to which drought might generate disservices as ecosystem shocks. Future proofing of systems against the risk impacts of drought shocks and stressors is dependent on informed decision options that are, in turn, dependent on adequate empirical observations across social, economic, and environmental disciplines.

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
