Message from the Guest Editor

Dear Colleagues,

This Special Issue, Feature Paper for Soil-Sediment-Water Systems Section, of *Land* is inviting papers and opinions on the topics related to the management of the soil-sediment-water systems, in natural as well as agricultural systems. Specifically, we are looking for manuscripts on the following topics:

- Sustainable land and water management
- Land restoration
- Nutrient cycling in land management

Manuscripts can be theoretical, applied, ‘state of the science’ reviews, and opinion papers. Interdisciplinary manuscripts are particularly welcome, as the soil-sediment-water system lies at the basis of all societal challenges of our time.

Dr. Saskia Keesstra

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars and we aim to publish high quality research and scholarship. By addressing important global issues across the broad sweep of land science, e.g., urbanization, land grabbing and ecosystem services, *Land* promotes an understanding which will lead to solutions that will benefit human well-being and environmental sustainability.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), AGRICOLA, AGRIS, GeoRef, RePEc, and many other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
