Message from the Guest Editors

Submissions are encouraged to cover a broad range of topics on the various applications of different techniques, which may include, but are not limited to, the following topics: (i) analysis of landslide conditioning and triggering factors, (ii) geomorphological analysis and GIS mapping, (iii) landslide hazard mapping, (iv) landslide susceptibility mapping, (v) remote sensing techniques for the definition of vulnerability and characterization of elements at risk, (vi) investigation and monitoring of landslide dynamics, (vii) implementation of sustainable territorial planning, and (viii) design and implementation of smart adaptation measures to reduce risks, such as early warning systems.

Deadline for manuscript submissions:

30 March 2021

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars and we aim to publish high quality research and scholarship. By addressing important global issues across the broad sweep of land science, e.g., urbanization, land grabbing and ecosystem services, *Land* promotes an understanding which will lead to solutions that will benefit human well-being and environmental sustainability.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: Indexed in the Social Sciences Citation Index (SSCI - Web of Science), Scopus (2019 CiteScore: 2.8) and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 12.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2020).
