Big Data Analysis for Sustainable Agriculture

Guest Editors:

Dr. Daniel P Roberts

Nicholas M. Short, Jr.

Dr. Sunil Kumar

Dr. Michael Buser

Deadline for manuscript submissions:
closed (21 July 2023)

Message from the Guest Editors

This Special Issue will include papers that focus on the causes of Big Data (i.e., traditional and non-traditional technologies), the ability to scale analysis due to advances in computing technology (i.e., the Cloud Platform), and the need for greater inclusion of diverse communities of practice based on technologies that foster collaboration. We will attempt to answer questions about how to bring a traditionally fractured communities together to meet the grand challenges of agriculture that await due to increased population and environmental stress.

Special Issue

Editor-in-Chief

Prof. Dr. Christine Fürst
Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
