## Advances in Hydrologic and Water Quality Modeling of Water Systems

Guest Editors:

**Dr. Saurav Kumar**

**Dr. Vamsi Krishna Sridharan**

**Dr. Ebrahim Ahmadisharaf**

Deadline for manuscript  
submissions:  
**closed (31 October 2021)**

### Message from the Guest Editors

This Special Issue invites a broad range of papers related to advances in hydrologic, hydrodynamic, and water quality modeling in watersheds. Of particular interest are innovations in the application of remote sensing (e.g., aerial or satellite) at any stage of model development and use, model calibration, validation, sensitivity & uncertainty analysis, assessment of ecological and socioeconomic challenges, trans-jurisdictional water system modeling, impacts of climate change and other nonstationary stressors, and integrated system modeling (e.g., hydrologic/ecological/social/economic systems interactions). Articles on basic research, reviews, and case studies are invited. Articles should highlight or suggest advances from the current state-of-practice. The Special Issue is of interest to a broad range of audiences, including hydrologists, scientists, practitioners, regulators, engineers, geologists, policymakers, and modelers.

## Editor-in-Chief

### Prof. Dr. Christine Fürst

Institute for Geosciences and  
Geography, Department  
Sustainable Landscape  
Development, University of Halle,  
Von-Seckendorff-Platz 4, 06120  
Halle, Germany

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
