### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. The aim is to collect innovative scientific contributions on the assessment and evaluation frameworks concerning, but not limited to: indicators and indices based systems, real estate evaluation models, geographic information systems, urban planning compensation schemes and financial operative tools that can support the decision processes that occur during public-private partnerships in the determination of the economic-financial, social and environmental risks related to land consumption reduction.

Deadline for manuscript  
submissions:  
**closed (20 December 2022)**
