Cultural Geography, Director
Urban & Regional Studies
Institute, University of Groningen,
Groningen, The Netherlands

Dr. Constanza Parra

Department of Earth and
Environmental Sciences,
University of Leuven - KU Leuven,
Leuven, Belgium

Deadline for manuscript
submissions:

closed (29 February 2020)

Message from the Guest Editors

Land, land use, land ownership, land tenure and land rights are much contested in concept and in practice. In addition to notions of place attachment and sense of place, critical concerns such as social justice, environmental justice, environmental movements, social protest, Indigenous peoples, informal tenure, land grabbing, livelihoods, displacement and resettlement, resistance and resilience are among the many issues that spring to mind when 'land' is considered from a social perspective. Many development projects cause the displacement of people. These changes can have profound social impacts for people rendered dispossessed by land grabbing. This Special Issue seeks to include papers that address any of the social aspects associated with land, land use and land management. We seek papers from around the world that address conceptual issues or case studies revealing the importance of land, and/or that discuss problems that arise in relation to land grabbing or project land acquisition.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
