Deadline for manuscript
submissions:

30 March 2022

Message from the Guest Editors

This Special Issue will serve as a platform for the exchange of experiences among participants of the 28th conference in the series of garden art and historical dendrology titled “Climate Change and Current Challenges for Landscapes and Cultural Heritage”. We would like to focus on an important discussion related to the climate change taking place in the world, with the identification of current problems and challenges in maintaining and preserving the cultural heritage of cities, villages, and open spaces. Raising this issue may significantly increase the awareness of the benefits associated with the protection of historical heritage and the vulnerability of and hazard to these monuments. We would like to focus on tangible cultural heritage, which includes cultural landscapes, historical buildings and gardens, archaeological sites, and historical sites.

(Saale), Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars and we aim to publish high quality research and scholarship. By addressing important global issues across the broad sweep of land science, e.g., urbanization, land grabbing and ecosystem services, *Land* promotes an understanding which will lead to solutions that will benefit human well-being and environmental sustainability.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), AGRICOLA, AGRIS, GeoRef, RePEc, and many other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
