Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editors

This Special Issue aims to provide a deep and complete overview of the state-of-the-art processes associated with Landscape-Based Spatial Planning in Europe and to inform scholars of the definition of future planning frameworks by international, European, national, and regional policymakers and decision-makers.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

1. Making Europe a place for everyone: promoting the development of new and deeper linkages between individuals, communities, and places as a way to construct social capital and personal bonds ‘to’ and ‘through’ the landscape in an increasingly globalized and digital world.
2. Landscape as mediator: supporting systemic and transdisciplinary ways of thinking and using the landscape as a connector between societal and environmental challenges.
3. Landscape knowledge for better spatial decisions: favoring the generation of knowledge, tools, and processes to effectively integrate the landscape into decision-making processes at different temporal and spatial scales.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and
Geography, Department
Sustainable Landscape
Development, University of Halle,
Von-Seckendorff-Platz 4, 06120

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Nature and Landscape Conservation)
