## Soil Erosion and Desertification

Guest Editor:

**Dr. Deirdre Dragovich**

Associate Professor, School of  
Geosciences F09, The University  
of Sydney, Sydney 2006, Australia

Deadline for manuscript  
submissions:

**closed (31 March 2021)**

### Message from the Guest Editor

UNCCD was established in 1994 and, over its 25 years of operation, has allowed the development and reporting of national policies that reduce the human impact of desertification. Communities in many countries have also been encouraged to participate in pursuing environmental sustainability goals. Although nations and communities have contributed, in varying degrees, to anti-desertification measures, soil erosion, as both a symptom and an outcome of desertification, remains a key concern, especially in the world's drylands.

This Special Issue seeks research articles and review papers that address the problem of water and wind erosion in drylands suffering from desertification, along with contributions which provide empirical studies of soil erosion processes, monitoring, distribution (spatial and temporal), and rehabilitation/ conservation in such areas. Of particular interest is the future trajectory of soil erosion in the desertified drylands under projected conditions of climate change.

## Editor-in-Chief

### Prof. Dr. Christine Fürst

Institute for Geosciences and  
Geography, Department  
Sustainable Landscape  
Development, University of Halle,  
Von-Seckendorff-Platz 4, 06120  
Halle, Germany

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
