Department of Anthropology,
Colorado State University, Fort
Collins, CO 80521, USA

Deadline for manuscript
submissions:

closed (31 December 2019)

Message from the Guest Editor

Dear Colleagues,

The last decades of the 20th century and the first decades of the 21st century have brought recognition that land surfaces are undergoing vast changes. These changes are driven by changes in human land-use and vary from place to place, and it is recognized by many that these changes are caused by multiple interconnected drivers and are multi-directional in scope. [...]

Land is sponsoring a Special Issue devoted to land-use transitions. In recent years, land-cover changes and land-use transitions associated with these changes have been accelerating around the world. This phenomenon is found across all sectors (e.g., rural, urban, peri-urban), and is often interconnected between the sectors through teleconnections and telecouplings. As part of this Special Issue, we would like to invite you to submit case studies investigating land-use transitions that you are studying and that are taking place within one of the sectors, or are telecoupled across sectors and/or geographic locations. The deadline for submission is 31 December 2019.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and
Geography, Department
Sustainable Landscape
Development, University of Halle,
Von-Seckendorff-Platz 4, 06120
Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
