Deadline for manuscript
submissions:

31 December 2021

Message from the Guest Editors

For this Special Issue, we invite papers that focus on, but are not limited to, the following topics:

- Sustaining biological activity, diversity, and productivity of urban soils;
- The buffering, degrading, immobilizing, and detoxifying capacity of urban soils with respect to different types of harmful substances and toxic elements originating from industrial and municipal byproducts as well as from atmospheric depositions;
- The role of urban soils in storing and cycling nutrients and other elements within the Earth's biosphere;
- Ecosystem services of urban soils as a control of microclimate and mesoclimate, carbon stock, etc.;
- Best practices with respect to the sustainable management of urban soils and improving quality of life.

Special Issue

land

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and
Geography, Dept. Sustainable
Landscape Development,
University of Halle, Von-
Seckendorff-Platz 4, 06120 Halle
(Saale), Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars and we aim to publish high quality research and scholarship. By addressing important global issues across the broad sweep of land science, e.g., urbanization, land grabbing and ecosystem services, *Land* promotes an understanding which will lead to solutions that will benefit human well-being and environmental sustainability.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), AGRICOLA, AGRIS, GeoRef, RePEc, and many other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
