Special Issue

Innovative Strategies for Sustainable Smart Cities and Territories

Message from the Guest Editors

In this Special Issue, we aim to publish innovative multidisciplinary work on current trends and perspectives in strategic management, innovation implementation, working models, and best practices that could improve the environment, economy, and social well-being in smart cities and territories. We are particularly interested in advances in governance models, simulation methods and data analysis, forecasting techniques, scenario planning, future designs, and complex system models that could contribute to improving critical thinking and decision making in urban and territorial resilience and sustainable development. Smart cities are more efficient, provide more opportunities for job creation, and ensure growth while also improving the social inclusion and engagement of residents. Enhancing the functionality, long-term sustainability, and standard of living for residents in smart cities can be achieved through the creation of effective, targeted, and sustainable smart city strategies.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
