

Special Issue

Rural–Urban Gradients: Landscape and Nature Conservation II

Message from the Guest Editors

In recent decades, progressive urban expansion related to the increase in the size of cities and human settlements has motivated a growing interest in understanding urban–rural gradients and their associated social-ecological processes. This Special Issue open to researchers interested in this field. Specific topics include, but are not limited to:

- Urban expansion and biodiversity variation;
- Edge cities and periurban–rural landscape;
- Tensions between urban growth and nature conservation;
- Social-ecological patterns and processes along rural–urban gradients;
- Social-ecological sustainability at the urban–rural fringe;
- Transformation and resilience of the urban–rural divide;
- Protected areas and governance systems related to urban–rural linkages;
- Implications of urbanization processes on land conservation and rural development;
- Rural–urban gradients and ecosystem services supply.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
