Special Issue

Recent Progress in Spatial Modeling in Urban Land Dynamics and Planning

Message from the Guest Editors

This Special Issue aims to bring together researchers and practitioners to share their latest findings and innovations in spatial modeling for urban land dynamics and planning. We encourage contributions that explore novel modeling approaches, integrate cutting-edge technologies or provide comprehensive reviews of current methodologies. Through this Special Issue, we hope to advance the field and contribute to the development of more resilient and sustainable urban environments.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
