

Special Issue

Land Development and Socio-Spatial Differentiation in Metropolitan Fringe Areas

Message from the Guest Editors

This Special Issue primarily focuses on land development and socio-spatial differentiation in metropolitan fringe areas. The foci of the proposed issue will include but not be limited to the following:

- Evolution of land development in metropolitan fringe areas;
- Assessment of sustainability of land use in metropolitan fringe areas;
- The social-spatial structure of metropolitan fringe areas;
- The social consequences of land development in metropolitan fringe areas;
- Equitable land development in metropolitan fringe areas;
- Policies to promote sustainable land use and social development in metropolitan fringe areas;
- The association between land use planning and transport development;
- The effects of infrastructure investment, urban regeneration, and displacement on socio-spatial inequalities;
- The development of streets, the built environment, public spaces, and urban design;
- Sustainable city and neighborhood development in metropolitan fringe areas;
- Architecture, land use, and town/country planning in metropolitan fringe areas.

Guest Editors

Dr. Hongsheng Chen

Prof. Dr. Yang Xiao

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
