## Editorial Board Members' Collection Series: Carbon Sequestration in Croplands

### Message from the Guest Editors

We are pleased to announce a new Collection titled “Editorial Board Members' Collection Series: Carbon Sequestration in Croplands”, which will collect papers invited by the Editorial Board Members. The aim of this Collection is to provide a venue for networking and communication between Land and scholars in the field of carbon sequestration, soil carbon, and nitrogen cycling. All papers will be published in open access following peer review. Keywords

- carbon/nitrogen cycling
- plant/soil relationships
- soil management
- cropping systems, tillage
- spatial variability

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
