

Special Issue

Integrating Post-Industrial Landscape Design Approaches with Climate Adaptation and Social Equity

Message from the Guest Editors

The goal of this Special Issue is to collect papers (original research articles, case studies and review papers) to give insight about this emerging area of landscape architectural research and design practice, as well as to indicate promising future directions of this field or work. In addition, we are looking for studies discussing ways in which the landscape field can collaborate and integrate research and work with specialists in other, parallel fields of study including ecology, environmental engineering, community development, and climate studies. This Special Issue will welcome manuscripts that link the following themes:

- creativity in landscape design and regeneration of land;
- aligning climate scientific data with spatial solutions;
- environmental justice and landscape planning and design.

Guest Editors

Prof. Dr. Niall Kirkwood

Prof. Dr. Luca Maria Francesco Fabris

Dr. Quanchuan 'Cara' Fu

Deadline for manuscript submissions

15 November 2025

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
