

Special Issue

Advances in Landscape Perception Based on New Approaches & Technologies

Message from the Guest Editors

The perception of landscape has been advanced by incorporating various technologies such as 3D scanning, physio-psychological measurements. The advancement is not limited to new technologies; new approaches such as point cloud data analysis and machine learning techniques all enhance the methodology of landscape perception studies. This Special Issue will welcome manuscripts that link the following themes:

- Digital landscape technologies and perceptions
- Psychological instruments and physiological studies for measuring landscape perception
- The application of neurosciences in the landscape studies
- Big data analysis of green space use and perception
- Machine learning techniques to understand people's perception, comfort and satisfaction in different landscape contexts.

We look forward to receiving your original research articles and reviews.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
