

Special Issue

The Other Perspective. City Networks and Territorial Justice towards a Landscape Ethics

Message from the Guest Editors

The goal of this Special Issue is to collect papers (original research articles and review papers) promoting in-depth reflections by researchers and converging disciplines at different levels (theoretical, methodological and applicative), on the origins, current panorama and future prospects of the relationship between the social system and environment, with a view to constructing a landscape ethics as a political-decisional background to support a just ecological transition. This Special Issue will welcome manuscripts that link the following themes:

- The real estate-scape, urban-scape, human-scape and territorial justice;
- Land registry reform and urban justice;
- A new landscape economy: an ecological, circular, and civil economy;
- Environmental risk and the landscape;
- Environmental justice and the landscape;
- Economy and territorial/landscape planning;
- Internal areas: abandonment and repopulation;
- State property management and the landscape;
- Natural infrastructures and the landscape;
- Energy-large infrastructures and the landscape.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
