

Special Issue

Advances in Land Consolidation and Land Ecology

Message from the Guest Editors

Land consolidation and land ecology are two interrelated fields that are essential for addressing these issues and promoting sustainable land use and regional development. By providing insights into these topics, the issue aims to foster further development in land conservation and management efforts through land consolidation and land ecology.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Land consolidation and land ecology policies and practices for sustainable land use;

- Land ecology and environmental sustainability;

- The impact of land consolidation on land ecology and the landscape construction in land consolidation;

- The role of technology and digital solutions in land consolidation and land ecology;

- Integrated land consolidation planning and management approaches;

- The socioeconomic impacts of land consolidation and land ecology;

- The orientation and guidelines for designing legal frameworks and strategies of land consolidation and land ecology.

Guest Editors

Prof. Dr. Yanmei Ye

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
