

Special Issue

Towards Land System Sustainability: Navigating Global Challenges and Local Realities

Message from the Guest Editors

Global environmental crises and socio-economic shifts demand adaptive land management bridging global pressures and local contexts. This issue invites interdisciplinary work on land system dynamics for resilience and sustainability.

Objective

Assess how governance, economy, climate, and population affect land systems; identify synergies/trade-offs; advance pathways aligning with global goals while respecting regional challenges.

Topics

Global-local governance: balancing global standards with local contexts.

Climate adaptation: practices enhancing resilience to disruptions.

Socio-economic drivers: demographic and economic influences on land decisions.

Ecosystem services & productivity: reconciling food, biodiversity, and ecosystem health.

Urban-rural dynamics: expansion, regeneration, and rural transitions.

Teleconnected systems: distant drivers (land scarcity, urban demand) shaping local patterns.

Innovative policies & tools: enabling sustainable transitions.

Guest Editors

Dr. Li Ma

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
