

Special Issue

3D Geovisualization in Landscape Design

Message from the Guest Editor

In the field of Geovisualization (geographic visualization), 3D technologies, such as Virtual and Augmented Reality, offer new forms of representation and visualization of geospatial data. Game Engine environments also allow new immersive and interactive scenarios for 3D terrain visualization. This Special Issue invites researchers to present experiences, methodologies, case studies and proposals on the application of 3D geovisualization technologies in the fields of Landscape planning and Landscape design/architecture. New teaching approaches from these 3D geovisualization environments and their impact on students are also interesting.

Guest Editor

Prof. Dr. Carlos Carbonell Carrera

Department of Technical and Project Engineering and Architecture,
University of La Laguna, 38200 Tenerife, Spain

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
