

Special Issue

Spatiotemporal Dynamics and Utilization Trend of Farmland

Message from the Guest Editors

This Special Issue will welcome manuscripts that link the following themes:

- Monitoring and modelling farmland change using multi-source remote sensing data;
- Drivers of farmland transformation: urbanisation, climate change, policy, and socio-economics;
- Trends in land consolidation, fragmentation, and marginalisation;
- Farmland utilisation efficiency and sustainability assessment;
- Scenario modelling and policy assessment of optimal farmland allocation;
- Technological innovations and data-driven tools for monitoring farmland.

We look forward to receiving your original research articles and reviews.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
