

Special Issue

Integrated Approaches for Sustainable Soil and Water Management

Message from the Guest Editors

This Special Issue aims to advance knowledge and practice in integrated soil and water management by fostering the integration of insights across disciplines and strengthening collaboration among scientists, practitioners, and policymakers. This Special Issue invites original research articles, reviews, and perspectives that advance knowledge and practice in integrated soil and water management. Topics of interest include, but are not limited to, the following:

- Integrated modelling and assessment of land–water–climate interactions
- Nature-based solutions for sustainable resource management
- Innovative technologies and tools for monitoring, planning, and decision support
- Catchment-scale management strategies
- Land use change and its impacts on water quality and availability
- Policy, governance, and stakeholder engagement frameworks supporting sustainable practices
- Adaptation and resilience strategies under climate change scenarios
- Data-driven and remote sensing applications for integrated management

Guest Editors

Dr. Nikola Živanović

Dr. Carla Sofia Santos Ferreira

Prof. Dr. Marijana Kapović-Solomon

Deadline for manuscript submissions

31 July 2026

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
