Special Issue

Smart City and Architectural Design, Second Edition

Message from the Guest Editors

The goal of this Special Issue is to collect papers (original research articles and review papers) with theoretical and methodological advances and operational and applied studies to provide insights into the broad concept of smart cities in relation to urban and spatial planning, urban and architectural design, innovative technologies, and policies that can improve future approaches to the issue of "smartness", sustainability, and flexibility at the local (building and block) and urban scale.

This Special Issue will welcome manuscripts that link, but are not limited to, the following themes: urban sustainability; urban resilience; urban regeneration; urban flexibility; healthy cities; smart solutions for climate change in the urban environment; smart cities; smart people and smart citizens; urban design; building efficiency; smart energy management; energy community; vulnerable communities; urban vulnerabilities.

We look forward to receiving your original research articles and reviews.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
