

Special Issue

Landscape Governance in the Age of Social Media (Second Edition)

Message from the Guest Editors

We invite you to delve into the relationship between contemporary forms of landscape valuation and governance and current social media. Possible lines of research include the current connections of social media with the following topics:

- The impact of social media and the virtual in general in the places we inhabit;
- User-Generated Content (UGC) or online surveys and the social perception of space;
- Big data, social media, and spatial research: implications of the meshing of qualitative and quantitative research methods;
- New methods for urban management and professional practices;
- Participatory scenarios and land planning based on online technologies;
- Digital twins, deep mapping, and the virtual datafication of physical spaces: their uses and impact;
- Traditional ecological knowledge (TEK) and governance decentralization;
- Multi-scale processes and social-ecological resilience;
- Spatio-temporal patterns for the maintenance of the living landscape;
- Sustainable governance and rural landscape stewardship;
- Inclusive and participatory land governance: a cross-country comparison.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
