Editorial Board Members' Collection Series: Geostatistical Methods in Land Process Studies

Message from the Guest Editors

We are pleased to announce a new collection titled "Editorial Board Members' Collection Series: Geostatistical Methods in Land Process Studies", which will collect papers invited by the Editorial Board Members. The aim of this collection is to provide a venue for networking and communication between *Land* and scholars in the field of land process research using geostatistical methods. All papers will be published in an open access format following peer review.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
