

# Special Issue

## Smart Land Use Planning II

### Message from the Guest Editors

With the evolution of geographic information systems, remote sensing, data mining and other technologies, the concepts of land intelligent management, refined planning, big data analysis and intelligent monitoring have moved from theory to practice. The purpose of this Special Issue is to invite academics and practitioners to describe their practical experiences and insights in this field, and to provide a platform for researchers to share theories, tools and practical experiences about smart land-use planning. Potential topics include, but are not limited to:

- New theory of smart land-use planning;
- Smart land-use planning and ChatGPT;
- Smart land-use planning and geospatial science, big data, blockchain and meta-universe and other advanced technologies;
- Challenging approaches for smart land use planning methods;
- Smart land-use planning and sustainable development;
- Smart land-use planning and urban governance;
- Smart land-use planning experience and best practices around the world.

We look forward to receiving your submission.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
