## Islandscapes: From Biodiversity Conservation to Ecosystem Services Provision

### Message from the Guest Editors

This Special Issue welcomes the submission of original research articles and reviews that address conceptual and methodological issues, including data challenges pertaining to the conservation and/or assessment of natural capital on islands.

The scope of this Special Issue includes, but is not limited to, the following topics:

- Natural capital conservation/assessment on islands;
- Island ecosystem services (ES);
- Mapping perceptions of island stakeholders on ecosystem services;
- Studies on water or energy or agriculture or tourism related ecosystem services on islands;
- Modelling island ecosystem services (bayesian networks, fuzzy networks, machine learning);
- Reconciling ES with conservation and management in islands;
- Effects of land use and climate changes (LU/CC) on the ES of islands;
- Nature-based solutions (NbS) for safeguarding the ES of islands;
- Policy and governance of islands for ES provision.

We look forward to receiving your original research articles and reviews.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
