

Special Issue

The Relationship Between Landscape Sustainability and Urban Ecology

Message from the Guest Editors

This Special Issue will welcome manuscripts that link (but are not limited to) the following themes:

- **Urban Landscape Sustainability and Resilience:** in terms of the integration of ecological principles with urban planning and design to enhance urban resilience, biodiversity, urban ecological networks, and multi-functionality.
- **Green Infrastructures, Protected Areas, and Ecosystem Services:** the role of green spaces, green roofs, and urban forests in enhancing urban sustainability.
- **Socio-Ecological Interactions:** the impact of sustainable landscapes on human well-being and community.
- **Sustainability and Smartness of Cities and Landscapes:** Geoinformation, remote sensing methods and techniques, spatial data infrastructures, and digital twins.

We look forward to receiving your original research articles and reviews.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
