

## Special Issue

# Exploring Sustainable Rural Development Models and Environmental Protection Reglamentations: Interactions and Compatibilities

### Message from the Guest Editors

This Special Issue aims to gather experiences, research, and proposals for good practices regarding the compatibility of environmental protection. All contributions that analyze this type of conflict are welcome, especially those that offer solutions, both from a theoretical point of view and through the analysis of good practices and case studies from any area of the planet.

Assessments or analyses of the impact of environmental regulations on economic activities in rural areas.

Case studies of compatibility between sustainable rural development and environmental conservation.

Best practices in the design of environmental regulations and compatibility with sustainable economic activity in these areas.

Rural development strategies based on environmental protection.

Analysis of rural areas as models in which economic activity and environmental conservation are compatible. Environmental impact assessment and rural development.

Good administrative practices in the environmental assessment processes of economic initiatives in rural areas.

Strategies and experiences in simplifying the bureaucracy of environmental regulations to promote sustainable economic activities in rural areas.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
