

Special Issue

The Role of Land Policy in Shaping Tourism Development

Message from the Guest Editors

This Special Issue aims to gather interdisciplinary research that examines how land policies influence tourism development patterns. It seeks to highlight best practices, innovative approaches, and case studies where land policies have successfully guided sustainable tourism. By fostering a comprehensive understanding, the Special Issue aspires to contribute to the formulation of policies that balance tourism growth with environmental sustainability and community well-being. This Special Issue will welcome manuscripts that link the following themes (but not limited to):

- The impact of land use regulations on tourism development;
- Case studies on sustainable tourism and land policy;
- Land policy innovations for environmental conservation in tourism;
- Community involvement in land use planning for tourism;
- Balancing tourism growth with land resource management.

For additional information and a comprehensive understanding, please visit the following link: https://www.mdpi.com/journal/land/special_issues/BCY5P58A00 We look forward to receiving your original research articles and reviews. Yours faithfully,

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
