Selected Papers from the 2022 Annual Conference on Development Geography

Message from the Guest Editors

The theme of the 2022 Annual Conference on Development Geography is development geography and sustainable land systems. This conference will discuss issues related to sustainable land systems, agricultural land use, climate change, food security, spatial planning, and big data technology; it will analyze land management policies and their economic effects, condense and optimize innovation-driven development policies, and help to provide regulatory policies and scientific paths for the implementation of regional sustainable development strategy and the promotion of the construction of "Beautiful China".

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
